CLASSICAL DEPARTMENT.

JUNIOR CLASS.

Name.	*Residence.*
Dodson J. A	Danville, Va.

SOPHOMORE CLASS.

Debnam, T. R	Rolesville, N. C.
Howard E. R	Wilmington, N. C.
Kilgore, G. W	Greenville, S. C.

FRESHMAN CLASS.

Johnson, John R	Richmond Va.

MEDICAL DEPARTMENT.

UNDERGRADUATES.

Alston, J. H ---- Summerville, S. C.
Educated at Shaw University.

Alston, J. H ---- Raleigh, N. C.
Educated at Shaw University.

Allison, F. T ---- Harper, Liberia, Africa.
Educated at Hoffman Institute.

Ashburn, James E. ---- Bowers Hill, Va.
Educated at Wayland Seminary.

Barrett, W. T ---- Danville, Va.
Educated at Lincoln University.

Burrell, Isaac C ---- Chula Depot, Va.
Educated at Lincoln University.

Bryan, T. H ---- Tarboro, N. C.
Educated at St. Augustine.

Name	*Residence.*
Bryan, James W.	Tarboro, N. C.
Educated at Shaw University.	
Bynum, Charles H	Wilson, N. C.
Educated at Lincoln University.	
Black, John L	Cynthiana, Ky.
Educated at State University, Ky.	
Bowen, M. D.	Clarkton, N. C.
Educated at Whitin Normal School.	
Burwell, Alexander	Boydton, Va.
Educated at Boydton Institute.	
Blackman, W. C.	Georgetown, Demarara, British Guiana, S. A.
Educated at Shaw University.	
Cole, W. A.	Raleigh, N. C.
Christmas, Henry S.	Raleigh, N. C.
Educated at St. Augustine.	
Denny, Solomon N.	Georgetown, Demarara, British Guiana, S. A.
Educated at Nigrum College.	
Davis, J. R	Raleigh, N. C.
Educated at St. Augustine.	
Exum, L. W	Tarboro, N. C.
Educated at Peoples High School.	
Ellis, James C	Calhoun, Ala.
Educated at Selma University.	
Foster, R. H	Kelton, S. C.
Educated at Hampton Institute.	
Fileen, J. F	Georgetown, Demarara, British Guiana, S. A.
Farrar, A. W. G.	Richmond, Va.
Educated at Richmond Normal School.	
Faulkner, H. C.	Warrenton, N. C.
Educated at Shaw University.	
Fuller, W. T.	Danville, Va.
Educated at Hampton Institute.	
Fort, P. W.	Washington, N. C.
Educated at Howard University.	
Fort, James E.	Washington, N. C.
Educated at Goldsboro State Normal School.	
Green, D. R.	Franklinton, N. C.
Educated at Shaw University.	

Name.	*Residence.*
Gerran, G. A.	Greensboro, N. C.
Educated at Bennett Seminary.	
Harry, G. W.	Greenville, S. C.
Educated at Shaw University.	
Holmes, J. B.	Edgefield, S. C.
Educated at Shaw University.	
Jefferson, E. R.	Richmond, Va.
Educated at Shaw University.	
Johnson, Elisha	Oregon, N. C.
Educated at Hampton Institute.	
King, Matthew R.	Tarboro, N. C.
Educated at Shaw University.	
Lord, A. D.	Salisbury, N. C.
Educated at Salisbury State Normal School.	
Leary, Jr., John S.	Fayetteville, N. C.
Educated at Fayetteville Normal School.	
Lloyd, J. M.	Elizabethtown, N. C.
Educated at Enterprising Normal School.	
Mattison, C. A.	Honea Path, S. C.
Edcated at Brewer Normal Institute.	
McKay, S. S.	Laurinburg, N. C.
Educated at Biddle University.	
Macon, Isaiah A.	Chester, S. C.
Educated at Brainard Institute.	
Malloy, W. M.	Laurel Hill, N. C.
Educated at Biddle University.	
Norman, E. G.	Plymouth, N. C.
Educated at Plymouth Normal School.	
Noah, J. H.	Dunklin, S. C.
Educated at Brewer Normal School.	
Pannill, M. W.	Lynchburg, Va.
Educated at Hampton Institute.	
Pritchett, W. T.	Brosville, Va.
Educated at Shaw University.	
Peace, William H.	Raleigh, N. C.
Educated at Shaw University.	
Roberts, Isaac	Eppes, Ala.
Educated at Selma University.	
Smith, Charles T.	Christiansburg, Va.
Educated at Christiansburg Institute.	

Tyler, F. P. ---------- Lowndesboro, Ala.
Educated at Selma University.

Winslow, A. L. ---------- Elizabeth City, N. C.
Educated at Plymouth State Normal School.

Wright, S. P. ---------- Elizabethtown, N. C.
Educated at Enterprising Normal School.

Woodward, E. O. ---------- Greenville, S. C.
Educated at Biddle University.

Warren, S. L. ---------- Durham, N. C.
Educated at Kittrells Normal and Industrial School.

Wilson, J. Floyd ---------- Williamston, S. C.
Educated at Shaw University.

Fleming, Lula C. ------ Mpalaballa, Congo Independent State, S. W. Africa.
Educated at Shaw University.

GRADUATES—Class of '92.

Dellinger, J. Elmer ---------- Lowesville, N. C.
Educated at Salisbury State Normal School.

Earle, Lawrence A. ---------- Belton, S. C.
Educated at Benedict Institute.

Hooper, W. D. ---------- Phœnix, N. C.
Educated at Enterprising Normal School.

Rhodes, W. C. ---------- Dallas, N. C.
Educated at Shaw University.

Shuften, John T. ---------- Augusta, Ga.
Educated at Knoxville, Tenn.

Smalls, Wm. C. ---------- Georgetown, S. C.
Educated at Shaw University.

Swan, C. S. ---------- Herndon, Ga.
Educated at Atlanta Baptist Seminary.

Walton, C. L. ---------- Dawson, Ga.
Educated at Shaw University.

PHARMACY.

UNDERGRADUATES.

Name.	*Residence.*
Alston, J. L	Louisburg, N. C.
Educated at Louisburg.	
Crews, P. R.	Winston, N. C.
Educated at Shaw University.	
Crews, C. F	Winston, N. C.
Educated at Shaw University.	
Cardwell, C. W	Raleigh, N. C.
Educated at Kittrells, Normal and Industrial School.	
Eagles, J. Lorenzo	Wilmington, N. C.
Educated at Hampton Normal Institute.

Mathematics—Geometry.

SCIENTIFIC COURSE.

FIRST YEAR.

First Term—Algebra, Latin, Zoology.
Second Term—Algebra, Latin, Rhetoric.
Third Term—Geometry, Latin, Rhetoric, General History

SECOND YEAR.

First Term—Geometry, Latin, English History.
Second Term—English Literature, Latin, Astronomy, Chemistry (once a week).
Third Term—Chemistry, Botany, Latin.

THIRD YEAR.

First Term—Psychology, Logic, Physics.
Second Term—Constitution United States, Moral Science, Physics, Geology, (once a week).
Third Term—Latin, Political Economy, Geology.

Weekly exercises in Rhetoricals during the course.

COLLEGE DEPARTMENT.

THE FRESHMAN YEAR.

FIRST TERM.

Geometry—Wentworth.
Latin—Cæsar and Latin Prose Composition, Allen and Greenough.
History of English People—Green.
Greek—Greek Grammar and Goodwin's Anabasis.*

SECOND TERM.

Solid Geometry—Wentworth
Latin—Cæsar completed.
Evidences of Christianity.
History of English Language.
Greek—Goodwin's Anabasis *

THIRD TERM.

Latin—Cicero's Orations.
Botany—Gray's Lessons and Manual.
Zoology—Steele.
Greek—Iliad.*

THE SOPHOMORE YEAR.

FIRST TERM.

Trigonometry—Wentworth.
Latin—Cicero's Orations completed, and Latin Prose Composition.
English Literature—Shaw.
Greek—Iliad.*

SECOND TERM.

Analytical Geometry—Loomis.
Latin—Greenough's Virgil.
Greek—Selections from Thucydides and Herodotus
or French Grammaa—Bocher's Otto.
Modern Plays—Hachette.*
Chemistry begun.

THIRD TERM.

Latin—Virgil completed.
Mechanics—Kimble.
Chemistry completed.

THE JUNIOR YEAR.

FIRST TERM.

Latin—Cicero's De Senectute et De Amicitia.
Physics—Kimball.
Astronomy—Steele.
Greek—Greek Testament;
or French.*

SECOND TERM.

Latin—Livy, Lincoln.
Logic—Hill's Jevons.
Geology—LeConte.

THIRD TERM.

Latin—De Officiis, Chase and Stuart.
Geology continued.
Political Economy—Wayland.

---

*Optional.

THE SENIOR YEAR.

FIRST TERM.

American Literature, *or* History of Modern Europe.
Elements of Psychology—Hill
Science of Rhetoric—Hill.

SECOND TERM.

Moral Philosophy.
History of Philosophy.
Constitution of the United States.

THIRD TERM.

Latin—Horace's Odes and Satires.
Constitution of the United States continued.
International Law—Gallaudet's.
Weekly Rhetorical Exercises throughout the course.

LOCATION.

Shaw University is beautifully located in the city of Raleigh, N. C., within five minutes walk of the Post-office and Capitol. The grounds include several acres of land, and are among the finest in the city, upon which have been erected five large handsome brick buildings. This institution furnishes by far the largest accommodations of any colored school in North Carolina, and in the large number of advanced pupils, is not surpassed by any colored school in the country.

In the different departments of the school all the different branches are taught, which a thorough course of study requires. There are eight different departments—Collegiate, Scientific, Normal, Theological, Medical, Law, Pharmacy and Industrial—in successful operation.

The course of study in Normal, Scientific and Collegiate departments can be seen by referring to another page. Diplomas are given in all the departments of study. The expense of diploma to the students in Normal, Scientific and College courses is five dollars. Students who have graduated in the College department, after devoting three years to literary studies, will be allowed to receive the degree of A. M. by the payment of five dollars.

INDUSTRIAL EDUCATION.

A large class of students among the young men are receiving instruction in carpentry and furniture-making; also all of the young women who board in the Institution give attention to dress-making, sewing, and receive instruction in the Domestic Arts.

Skilled teachers in these departments of industry have been provided. Students who pay a part of their expenses by working must work not less than twenty-four hours per month.

MEDICAL DEPARTMEMT.

Two large buildings, known as the Medical Dormitory and Leonard Medical Building, have been erected. The latter adorns the beautiful site so generously donated by the State of North Carolina. The buildings are commodious and afford first-class accomodations for a full course in medicine.

The Department of Medical Instruction has been provided for, and the Trustees and Faculty will put forth every effort possible to make this department of study of great value to the colored people.

The Annual Course of Lectures will commence November first and continue five months.

EXPENSES OF MEDICAL COURSE.

Matriculation (paid annually)	$ 5 00
The five months' course of Lectures	60 00
Graduation fee	10 00
Incidentals	8 00

Material for dissection will be furnished, and there will be no extra charge for Demonstrator of Anatomy's ticket.

All fees must be paid in advance.

The other expenses will be per month as follows:

Room-rent, lights and fuel	$3 50
Board, lights, room-rent and fuel	8 50

Students can reduce the above expenses two dollars per month by labor.

All students from abroad must room upon the University grounds.

The students of this department may enjoy all the benefits of the University Library, also all the lectures and general exercises of the other departments, without extra expense.

For needy and deserving students, scholarships amounting from $30.00 to $60.00 will be provided to help pay fees.

PHARMACEUTICAL DEPARTMENT.

The second annual session of this school will open Tuesday, November 1, 1892. A fine building has been completed containing dormatory, rooms for students, and the necessary accommodations for a drug store, etc. Every fscility has been provided to make this department of Shaw University a grand success.

Eleven students were enrolled during the session and the progress was most gratifying. In the closing written examination, conducted by Dr. Simpson of Raleigh, a noted pharmacist, with the same examination papers as the State Board of Pharmacy used. Three of the young men marked respectively seventy-nine, eighty and eighty-three, while the standard required by the State Board is only seventy-five. These results were unexpected and clearly prove what colored men can do in Pharmacy.

The Drug Store is a necessary adjunct to a school of Pharmacy. Students can acquire a knowledge of crude drugs, and learn under competent direction how to compound medicines. The Drug Store has been tastefully fitted up and has a good quantity of drugs, which are dispensed to the citizens of Raleigh and to the patients of the Leonard Medical School Hospital.

Students applying for admission must be of good moral character, with a knowledge of the English branches and some proficiency in Latin and the sciences. Students deficient in the above studies are recommended to spend a year in the Preliminary Medical Course. Pharmacy is an important study and students will be compelled to pass rigid examinations to insure the public against incompetency.

The course will continue throughout three years, and will comprize the study of Botany, Chemistry, Labratory Work, Bartholow's Materia Medica and Remington's Pharmacy.

EXPENSES.

Tuition per session	$30 00
Graduating fee	10 00
Room-rent, fuel and lights per month	3 50
Room-rent, fuel, lights and board per month	8 50

Students can make their own arrangements for board in the city if they prefer.

The school opens and closes the same day as the Law and Medical departments.

A scholarship of ten dollars per session will be granted to needy and worthy students, to be credited on tuition.

Students can reduce their bills two dollars per month by labor in the Industrial Department.

SHAW UNIVERSITY LAW SCHOOL.

At the annual meeting of the Trustees of Shaw University, held in the city of New York, June 29th, 1888, it was voted to found a Law Department in connection with Shaw University.

Since the above action of the Trustees, with the sanction of a special committee, composed of Col. C. H. Banes, W. W. Keen, M. D., and James Butterworth, Esq., of Philadelphia, Hon. JOHN S. LEARY of Fayetteville, N. C., has been appointed as an instructor in the Law Department.

Mr. Leary is favorably known in North Carolina as a colored gentleman of eminent ability, having served in the Legislature and held various offices of prominence and trust, and ranks among the foremost in his profession as a lawyer in the State. His appointment has been kindly received by the young men of Shaw University.

The regular session will open and close the same day as the Medical School, beginning November 1st and closing March 31st. Terms are as follows:

Matriculation fee, (paid annually)	$ 5 00
Incidentals, (paid annually)	3 00
Tuition, per session	60 00
Room-rent, Fuel and Lights	3 50
Board, Lights, Fuel and Room-rent, per month	8 50
Graduation Fee	10 00

If desired, students will be allowed to make their own arrangements for board in the city.

All students from abroad must room upon the University grounds.

To worthy students who need assistance, a scholarship of $50.00 per year will be granted, to be credited on their tuition.

Applicants will not be received under eighteen years of age.

MATHEMATICS.

In this department the following branches are taught: Arithmetic, Algebra, Geometry, plane and solid, Trigonometry and Surveying.

In these branches the student is not only taught a knowledge of the subject matter, but the best methods of imparting that knowledge to others. Arithmetic, for instance, is taken up by topics. The members of the class take notes on the given topic; when they come to recite each member of the class acts the part of a teacher. By this method the student gets the subject more firmly fixed in his mind, becomes independent of the text-book, and is better prepared for the work of a teacher.

GEOGRAPHY.

In addition to the method employed in the Normal Department for training the student how to teach the subject matter of each branch of study, special drill is given in Map Drawing through all the grades.

This training enables the student to sketch rapidly the outlines of countries simultaneously with his class at the black-board, giving him facility and power to draw from memory while he recites the different topics connected with a thorough study of both Political and Physical Geography.

This method not only creates interest in the study of Geography and thoroughly familiarizes the student with the branch, but develops the power of observation, discrimination and description.

After sufficient drill has been given in drawing, a portion of each term is spent in writing compositions on various topics of Geography, requiring the use of reference books.

This makes the student familiar with the use of books of reference, and gives him a knowledge of Composition and Geography.

ENGLISH GRAMMAR.

Our aim is to make the study of English Grammar as practical as possible, and to this end the pupils are drilled, not only in the analysis and parsing of sentences, but in sentence building and letter-writing. Pupils are taught to put the priciples of Grammar into practice daily, by correcting faulty expressions which occur in conversation, in recitation, and in composition, stating always the grammatical principle violated.

To insure thoroughness and promote interest, written examinations are required at the end of each month.

PHYSIOLOGY AND HYGIENE.

The importance of giving instruction in these brauches cannot be easily overestimated.

It is intended that the students shall acquire such a knowledge of these sciences as will suggest the formation of such habits of living and modes of action as will insure better protection to the health and morals of themselves and those with whom they may have influence.

HISTORY.

The study of History begins in the Normal Department, and is continued throughout the Normal and College courses. Instruction is given according to the most approved methods. The topical method is combined with a judicious use of the text-books. Many necessary books of reference are found in the College Library. Students are required to recite without question, and make illustrations from memory by means of maps, diagrams, outlines, etc.

The same method is pursued in both College and Normal Departments. Special care is taken to leave the impression of History as a unit.

RHETORIC.

As a science of speaking and writing, Rhetoric is made a speciality. The class-room work consists largely in criticism, analytical and synthetical; a careful construction of sentences, paragraphs, etc., according to the best authors, and a rigid scrutiny of each word as to its perspicuity and right use. The critical method for the class-room is followed also in the weekly rhetorical class.

MUSIC.

The expense of instruction upon the organ and piano is one dollar per month for one lesson per week. As the colored people possess great natural talent for music, it has been thought desirable to afford first-class facilities, that they may be able to cultivate this talent, which cannot fail to be of great service as an auxiliary in promoting their elevation, and especially in its attractive and refining influence in connection with the Sabbath School work and religious worship.

SCIENCES.

PSYCHOLOGY.—The instruction in this branch is given by text-book, supplemented by lectures. For the time allotted to the study, the whole field of Psychology is traversed as thoroughly as possible. It is endeavored to make the facts considered practical by reducing them to daily observation and practices

PHYSICS.—The instruction in Physics comprises two terms' work: Mechanic. Sound, Heat, Optics, Electricity and Magnetism. The aim is to make each subject treated as plain and simple as possible by experimental lectures. For the purpose of experimenting, there is connected with the department a well-

equipped Laboratory of the most modern apparatus. The practical application of the theories can be fully illustrated.

GEOLOGY.—Instruction is given both by text-book and lectures. Students are required to study and label all the stones in the vicinity of the college.

BOTANY.—No study better adapted to develop the perceptional powers of the mind than Botany; no study is better adapted to cultivate the ideas of symmetry and of the beautiful. After a few weeks spent in the study of the anatomy of plant tissues, the student begins to analyze plants. He is required to give minute descriptions and drawings of seeds, roots, stems, leaves and flowers. Here bariums are put up, and a large number of plant descriptions are recorded by the student in a blank-book prepared for the purpose.

ZOOLOGY.—In this study, which is taught principally by text-book, a wide field is covered, and original researches are made as far as possible.

LANGUAGES.

LATIN.—This department is designed to acquaint the student with some of the best authors in the language, and also to give him the best possible mental discipline by a thorough study of the structure of the language. The first two years are given largely to Etymology and Syntax, that the student may be well grounded in the forms and principles of the language, thus obtaining the best results from the remainder of the course.

GREEK.—This study is optional. The course is arranged to meet the demands of those who wish to pursue a special course in the classics, or who wish a knowledge of the Greek as an aid in their theological study.

THEOLOGICAL COURSE.

FIRST YEAR.

EXEGETICAL THEOLOGY.—Study of the Bible; Scripture Geography, with Map Drawing, Chronology and Bible History; Practical Expository Exercises on the Sermon on the Mount, with the Harmony of the Gospels.

SECOND YEAR.

Harmony of the gospels, with the study of the Parables and Miracles of Christ. Expository stndies in the Pastoral Epistles. The Pastor, Harvey; the Church, Harvey; the Office of the Deacon, Howell; Church Discipline, Hiscox. The Being and Attributes of God and His Providence. Homiletics, Broadus.

THIRD YEAR.

Expository studies of the first seven chapters of Genesis; of the Decalogue; Pentateuch; Historical, Poetical and Prophetical books of the Old Testament, with lectures on the origin and history of the Sacred Canon.

HISTORICAL THEOLOGY.—Life of Christ: Geike.

SYSTEMATIC THEOLOGY.—Soteriology or Doctrine of Christ; The Deity, Humanity and the Union of these two Natures. His prophetic, vicarious and regal work.

PRACTICAL THEOLOGY.—Sermon-making.

FOURTH YEAR.

EXEGETICAL THEOLOGY.—The Christology of the Old Testament; the study of the Epistles.

HISTORICAL THEOLOGY.—General Church History; History of the Baptist denomination.

PRACTICAL THEOLOGY.—Homiletics, Preparation and Delivery of Sermons Christian Theology.

ESTEY SEMINARY.

The Estey Seminary building is one of the finest school edifices in the State of North Carolinia, and is said to be the first erected of any considerable size devoted exclusively to the education of colored women. It has accommodations for about one hundred boarding pupils, with recitation-rooms for a much larger number. The Seminary is named after the late Dea. Estey, of Brattleboro, Vt., and constitutes one department of Shaw University. Dea. Estey and sons were the first men in the denomination to aid in this department of work, and it has been largely through their liberality and continued interest in female education among the colored people that the building has been completed and furnished. George M. Morse of Putnam, Conn., has also rendered valuable assistance.

Expenses per Month

FOR ALL STUDENTS IN THE NORMAL, SCIENTIFIC, COLLEGIATE AND THEOLOGICAL DEPARTMENTS.

Board, Room-rent, Fuel, and Lights for young men and women, per month, four weeks ..... $ 8 50
Fuel, Tuition, Lights and Room-rent, for those not boarding in the Institution 3 50
Tuition for day pupils, four weeks 1 50

The young ladies will be allowed to do their own washing.

The expense of instruction upon the Organ and Piano is $2 00 extra per month for two lessons per week, or $1 00 per month for one lesson per week.

Fifty cents per month extra will be charged for those who practice on Piano.

Instruction in Free-Hand drawing will be $1 00 per month.

Young men and women who wish to pay a part of their expenses by working will be taken at the following rates:

Young men, per month, four weeks $6 50
Young ladies, " " 5 50

At the above reduced rates, the money must be paid at the end of each month or an extra fifty cents will be charged.

Students receiving instruction in setting type will be charged as tuition $1 00 extra per month.

The expenses of students have been reduced to the lowest possible rate.

FINANCIAL CONDITION OF THE UNIVERSITY.

The important work of founding this Institution has been steadily going forward during the last twenty-five years, until the property is valued at one hundred and fifty thousand dollars. But the success of the past, while it calls for thanksgiving to the Bestower of all good, should not blind the friends of the enterprise to the necessity of continued effort and zeal. The Institution stands now in the front rank, compared with the schools established by other denominations for the education of colored people; and should these pages meet the eye of any who feel the importance of the enterprise, and are seeking how they can invest their surplus wealth where it will bless more fully the present and coming generations, we invite them to consider the wants of this Institution, not only as it relates to the colored people of our own land, but its destined effects upon African civilization as a Foreign Missionary work.

Rules.

1st. The course of study will be open to all young men and women who can present testimonials of unblemished moral character.

2nd. Students must bear a satisfactory examination in all the previous studies of the class they propose to enter, and to be admitted their scholarship must be equal to the average of the class.

3d. No student shall be allowed to absent himself from any recitation, lecture, roll-call, or any exercise enjoined by the Faculty, unless previous permission has been obtained from the proper excusing officer.

4th. All excuses for delinquencies shall be made in person or by writing, to the proper excusing officer, and until this is done the delinquencies of any student will stand against him as unexcused.

5th. During study hours each pupil when not in recitation shall remain in his room and apply himself strictly to his studies. The following points at least are embodied in the above rule: There shall be no loud talking and laughing in any of the halls or rooms. No frivlous conversation or attention to trivial matters, or visiting each other's rooms, or lounging upon beds, or loitering upon the grounds.

6th. Any defacement of the buildings or grounds, or committing any nuisance, shall subject a student to immediate expulsion.

7th. No student shall be allowed to throw, water slops, paper, or anything offensive or dangerous from the windows of any building of the University.

8th. No student shall be allowed to smoke or chew tobacco in any of the University buildings, or spit upon the floors, or visit any drinking saloon, or bring upon the grounds or use any spirituous liquors, unless for medical purposes.

9th. If anything is removed or lost that is in the possession of any student, or if injury is done to furniture, rooms, buildings, or any property belonging to the University, the damage shall be assessed by the President, and the amount designated to cover the loss shall be paid immediately by the student or students doing the injury; also, students vacating their rooms must leave them in good order or a fine of one dollar will be imposed.

10th. Students are required to attend Divine worship at the University hall.

11th No student shall be permitted to remain in the University who does not at all times maintain the habits of virtue and the strictest rules of deportment, and treat the officers of the Institution and his fellow-students with respect.

12th. Whenever the Faculty become satisfied that a student is wilfully violating the rules of the School, or is not industrious in his studies, or for any cause is not a fit member of the University, the President shall write his parents or guardian, in order that he may be withdrawn, but in case the welfare of the University demands immediate action, then he shall be disciplined or excluded, at the discretion of the Faculty.

13th. No student will be admitted under twelve years of age.

14th. No young man or woman from the city, without any legitimate business, will be allowed to visit the students at their rooms or mingle with them upon the

grounds. Relatives and friends will always be welcomed, and the colored people of the State generally are invited to visit Shaw University.

15th. No student shall be allowed to bring upon the grounds any fire-arms of any kind, or carry any concealed or dangerous weapon, or make any threats to injure any student. Immediate expulsion will follow the violation of the above rule in any department of the school.

16th. Any student acting dishonestly in settlement of his bills, or failing to keep his pledges faithfully as to the payment of his bills; when it is in his power, will stand excluded.

17th. All students from abroad must room upon the University grounds.

Such rules for the government of Medical, Pharmacy and Law students will be made as the exigencies may require.

GENERAL RULES FOR THE GOVERNMENT OF THE FEMALE DEPARTMENT.

I. Young ladies are expected to room in the Estey Building, unless they have relatives living in the city who will become responsible for their conduct, and with whom they can room and board.

II. No young lady thus rooming in the city shall be allowed to receive calls from the young men of the school.

III. It is requested that parents in providing an outfit for their daughters will furnish them with rubber over-shoes, a water-proof and an umbrella. There is no necessity for costly wearing apparel. Plain worsted goods or calico is all that is necessary. Good behavior and industrious habits of study will be regarded as the best adornment.

IV. No young man shall be allowed to call upon young ladies without permission from the President.

V. No young man shall be allowed to converse or in any way communicate with any young lady, either passing through the halls, or upon the grounds, with the exception of half-an-hour on Saturday afternoon, when the young ladies and gentlemen will be allowed to converse with each other.

VI. No young lady will be allowed to visit any family in the city without permission of the President.

VII. On Saturday afternoon, in company with a female teacher, young ladies will be allowed to do their shopping,

VIII. No young lady will be allowed to receive any note or letter from any individual living in the city, either by hand or through the mail, until it is first delivered to the President.

IX. Young ladies who do not wish to live under healthy restraint, but go and come as they please, will not be received into the Institution, as it is intended to maintain a high standard of scholarship and lady-like deportment.

X. No young lady will be permitted to remain in the city after the close of the session of the school without permission from the President.
